

**The only Accounting Suite specifically designed for MGA and Agent reconciliation.**

SCHEMESERVE

# Right on the money.

With the **Digit** package, accounting just got a whole lot easier.

- **No more 'double keying'** or duplicating work; bank time and money by avoiding the use of third party software.
- **Agent & MGA Reconciliation;** the only Accounting Suite on the market to manage reconciliation between Agents and MGAs. Speed up the process and improve accuracy with accounting software designed specifically for your business.
- **Flexibility in how you withdraw your commission;** use this unique feature and decide, on a per scheme basis, whether to withdraw your commission when the premium is paid or when the transaction is settled to the insurer.
- **Granular permissions;** amend how much power each user has when using Accounting.
- **Activity Log;** filter by date, time and client to see transactions within a certain period, as well as viewing the most recent transactions at a glance.
- **View Trial Summary and Trial Balance,** with the click of a button.
- **Multi-currency;** trade in any currency and Accounting will do the rest.
- **Adjustment Tolerances;** manage adjustment tolerances on transactions per user, per scheme.
- **Export all transactions,** as well as Trial Summaries and Trial Balances to PDF or CSV.

Simple and streamlined accounting is just around the corner.

# Fancy turning up the heat?
